

NAMES OF THE OFFICERS OF HER MAJESTY'S SHIP "ALBION" 1ST of October to 31ST December 1853

Extracted from the Muster
(PRO ADM 38/2384)

Some names are listed more than once during this period because a number of persons were discharged from one list only to be entered on another because of promotion within the ship. Others discharged were promoted or moved to other ships. 'D' is discharged; 'DD' is discharged dead. The only example of the latter is Midshipman George Hugo who, at Barcelona, fell 90 feet from the fore top to the forecastle without anything to break his fall. He was buried in the Protestant cemetery.

(N.B. Every care has been taken with the transcription of names from the original handwriting, but some spellings may be inaccurate. However officers' names are the easiest to corroborate and are therefore likely to contain least errors. Names are listed in the order they appear in the document.)
